

Israel strikes risk Gaza deal Hamas accused of backtracking on fragile ceasefire pact

AFP, JERUSALEM: Israel carried out fresh air strikes on Gaza on Thursday and accused Hamas of backtracking on parts of a fragile ceasefire and hostage release deal ahead of an expected vote by its cabinet.

The truce, announced by mediators Qatar and the United States on Wednesday, would take effect on Sunday and involve the exchange of Israeli hostages for Palestinian prisoners, after which the terms of a permanent end to the war would be finalised.

But the office of Prime Minister Benjamin Netanyahu said Thursday that Hamas had "renege[d] on parts of the agreement reached... in an effort to extort last-minute concessions".

It also said that the Israeli cabinet, which has yet to approve the agreement, "will not convene until the mediators notify Israel that Hamas has accepted all elements of the agreement".

Hamas political bureau member Sami Abu Zuhri said there was "no basis" for Israel's accusations.

In Gaza, the civil defence agency said Israel pounded several areas of the territory after the deal was announced, killing at least 75 people and wounding hundreds more.

The agreement followed months of fruitless negotiations to end the deadliest war in Gaza's

CONTINUING ISRAELI 'AGGRESSION' ENDANGERS HOSTAGES, WARNS HAMAS

AFP, PALESTINIAN TERRITORIES: Hamas's armed wing warned on Thursday that Israel's continuing air strikes and shelling in Gaza after the announcement of a ceasefire deal was risking hostages meant to be released.

"Any aggression and shelling at this stage by the enemy could turn the freedom of a prisoner into a tragedy," the Ezzedine Al-Qassam Brigades said on Telegram, referring to the dozens of Israeli hostages held in Gaza since the October 7, 2023 attack that triggered the war.

Without offering details, Abu Obeida, spokesman for the armed wing, said an Israeli strike had hit a place where one of the women to be freed "in the first stage of the ceasefire deal was located".

Since then, Gaza's civil defence agency reported that Israel had "escalated" its strikes across the territory, reporting at least 80 killed and hundreds more wounded.

Civil defence spokesman Mahmud Bassal said on Thursday that its teams had recovered the bodies of five children after a strike on the northern city of Jabalia.

history and, if finalised, would pause hostilities one day before the inauguration of US President-elect Donald Trump.

day, the Israeli leader's office said, thanking them for their help securing the agreement but also cau-

tioning that "final details" were still being worked on.

The war was triggered by the October 7, 2023 Hamas attack on Israel, which resulted in the deaths of 1,210 people, mostly civilians, according to an AFP tally of official Israeli figures.

During the attack, the deadliest in Israeli history, Palestinian militants also took 251 people hostage, 94 of whom are still being held in Gaza, including 34 the Israeli military says are dead.

Israel's ensuing campaign has destroyed much of Gaza, killing 46,788 people, most of them civilians, according to figures from the Hamas-run territory's health ministry that the UN considers reliable.

In Israel and Gaza, there were celebrations welcoming the truce deal, but also anguish.

Saeed Alloush, who lives in north Gaza, said he and his loved ones were "waiting for the truce and were happy", until overnight strikes killed his relatives.

"It was the happiest night since October 7" until "we received the news of the martyrdom of 40 people from the Alloush family", he said.

In Tel Aviv, pensioner Simon Patya said he felt "great joy" that some hostages would return alive, but also "great sorrow for those who are returning in bags, and that will be a very strong blow, morally".

Biden warns of oligarchy taking shape in America

PTI, WASHINGTON: Outgoing President Joe Biden has warned of a rising ultra-wealthy 'oligarchy' in America that poses a threat to the nation's democracy, as he prepared to cede power to President-elect Donald Trump.

FAREWELL SPEECH

In his farewell address to the nation, Biden also pushed for amending the Constitution to make clear that no president is immune from criminal liability - an apparent reference to Trump, 78.

In July, the Supreme Court ruled that presidents cannot be prosecuted for 'official acts' during their time in office. The court's ruling stemmed from the Justice Department's case against Trump over his efforts to overturn the 2020 election.

President Joe Biden speaks from the Oval Office of the White House as he gives his farewell address, on Wednesday

“Today, an oligarchy is taking shape in America of extreme wealth, power and influence that literally threatens our entire democracy, our basic rights and freedoms, and a fair shot for everyone to get ahead

“The free press is crumbling. Editors are disappearing. Social media is giving up on fact-checking. The truth is smothered by lies, told for power and for profit. We must hold the social platforms accountable

“We need to amend the Constitution to make clear that no president is immune from crimes that he or she commits while in office.
