Ministers working hard for India FTA prize, UK Parliament told

PTI, LONDON: The ministers in the UK's Department of Business and Trade (DBT) are determined to work extremely hard to secure the "significant prize" of a Free Trade Agreement (FTA) with India, the British government told Parliament on Thursday. During questions on the topic of trade in the House of Commons, Opposition Conservative Party MP Bob Blackman asked the Labour government about the steps being taken to negotiate the FTA and ensuring access to the services market in India, which he said "has previously been denied to UK firms".

It comes after UK Business and Trade Secretary Jonathan Reynolds confirmed plans for a visit to Delhi next month to formally relaunch trade talks, stalled by the general election cycles in both countries last year. "The secretary of state will travel to Delhi in February to relaunch trade talks with India," Gareth Thomas stated in the Commons, responding on behalf of the government as the Parliamentary Under-Secretary of State for Business and Trade in the DBT. "Work is under way across government to prepare for those negotiations as we seek a deal that drives economic growth. An agreement with India, projected to be the fourth-largest global importer by 2035, could provide further opportunities for businesses across the UK and further unlock growth," he said.

The MP for Harrow West in London went on to refer to himself and his Tory colleague, Bob Blackman - who is the MP for his neighbouring constituency of Harrow East, as "enthusiastic" supporters of the FTA. The investigation found that the person who circulated the screenshot had doctored the image and its date and time stamp to show that he accessed the paper before the exam started, the officials said.

CBI files closure report in UGC-NET paper leak case

PTI, NEW DELHI: The CBI has filed a closure report in the case pertaining to the 2024 UGC-NET, which was cancelled following inputs suggesting that its question paper was leaked on the darknet and was being sold on Telegram, officials said on Thursday. In its closure report filed before a special court, the Central Bureau of Investigation (CBI) said there was no evidence of paper leak in the case. The agency also sent a report to the Union education ministry.

The court will now decide whether to accept the report and close the case or direct the agency to further probe it. The central probe agency found that a "doctored" screenshot of the "leaked" question paper for the June 18, 2024, exam was being circulated by a student to make some money, the officials said. On the exam day, the paper was found doing the rounds on Telegram channels in the afternoon, before the second shift of UGC-NET, giving an impression that it was leaked and the person circulating it had access to it, they said.

The investigation found that the person who circulated the screenshot had doctored the image and its date and time stamp to show that he accessed the paper before the exam started, the officials said.

MONTH'S MIND
