BICHOLIM: The impasse over iron ore transportation in Bicholim taluka finally ended on Saturday with Vedanta Sesa Goa agreeing to stop operating 12-wheeler trucks hired by it.

With this development, iron ore transportation in the taluka, which was halted for three days, will now resume from February 3.

The decision was taken during a meeting in the office of Bicholim MLA Dr Chandrakant Shetye.

We will now transport ore from the mining block as well as the rejected ore from Monday. Though it was stated that it would be on trial basis for next 10 to 12 days, we are of the firm opinion that the Bicholim Truck Owners' Association will transport the ore from both the sites and will not allow any outsiders

Goa Congress: Puppet on a BJP string?

Criticism grows louder from both within and outside the party as leaders, activists slam Congress for 'soft Opposition' politics

PANJIM: Job scam, land-grabbing, curtailed Assembly session, Siddiqui's escape... Goa might be on the boil for many months now, but the muted approach of the State's principal Opposition party - the Indian National Congress – has raised fears about the party having gone soft, something that will strengthen the hands of the ruling BJP leading up to the 2027 Assembly elections.

Why is Congress not

raising decibel levels and putting the government on the mat - it's a question that is getting louder and even long-time party members won't ignore it anymore. Former Congress MLA Agnelo Fernandes confessed that he had noted a distinct lack of energy within its ranks. "There is no 'josh' in the Opposition anymore. We don't see the fire that was once there. whether it was Congress or BJP challenging the government. Perhaps it's due to the reduced number of opposition members in the Assembly. Barring Vijai Sardesai, no one seems vocal enough to take on the government," Fernandes said.

Democracy is safeguarded by a fighting opposition, one that engages in struggles on the streets. That's where Congress is falling short -Cleofato Almeida

Senior Advocate Cleofato Almeida Coutinho offered a critical perspective on Congress. While acknowledging the party's national presence, he pointed out that Congress has failed to strengthen its grassroots base. "Congress is not a cadre-based party, and while it does take up important issues, it's not ing opposition, one that engages in struggles on the streets. That's where Congress is falling short. To defeat the BJP, we need a counter-narrative to Hindutva and leadership that can capture the people's imagination. How that will unfold remains to be seen."

of opposition leaders today have their own businesses. If they speak out against the BJP government, they risk being harassed. We've seen how the government targeted Congress MLAs who later joined the BJP. The BJP is also skilled at dividing votes. A regional party, once silent, is now suddenly active, and the BJP is using them to divide votes," Tamankar noted. "It's unfortunate that we don't have a formidable opposition, though I do appreciate the efforts of people like Vijai Sardesai in the Legislative Assembly."

Former minister Sadanand Malik contended that the Opposition was not actually weak but was being made to appear so "For the first time in Goa's Legislative Assembly, the Leader of the Opposition is a first-timer. While the opposition members are competent, the government is exploiting the situation. Congress should have leveraged the experience of leaders outside the Assembly to guide the new members. This could have helped the party address key issues and mobilise support on the streets," Ma-

GONCOI, SANCOALE: Candlelight meeting that saw thousands attend, a nineday fast by village elder Premanand Naik - the protests against the Bhutani Infra project that rocked Sancoale last year are gathering pace again, as villagers are now moving door to door, collecting signatures against the controversial housing project that they say threatens the environment and the local community.

The latest protests are gathering steam after Bhutani moved in with machinery to the site recently. While the company claims it is for "soil testing", volunteers are collecting signatures of villagers who
