Debt recovered multiple times over, says Mallya

Karnataka HC issues notice to banks asking for details

PTI, BENGALURU: Fugitive businessman Vijay Mallya on Wednesday claimed before the Karnataka High Court that the Rs 6,200 crore debt he owes to banks has been recovered "multiple times over," and sought a statement, detailing the amounts recovered from him, United Breweries Holdings Ltd (UBHL, now in liquidation), and other certificate debtors.

The High Court issued a notice to banks in response to the petition filed by Mallya on February 3. Justice R Devdas directed the banks to respond by February 13.

As an interim relief, the petition also sought a stay on any further asset sales by banks under the amended recovery certificate until clarity is provided on the full settlement of the debt.

Senior advocate Sajjan Poovayya, representing Mallya, argued that the winding-up order against Kingfisher Airlines and its holding company, UBHL, had been upheld at all judicial levels, including the Supreme Court.

Poovayya contended that the debts had already been recovered, yet additional recovery proceedings

The High Court issued a notice to banks in response to the petition filed by Mallya on February 3. Justice R Devdas directed the banks to respond by February 13

continued against Mallya. He also informed the court that a debt recovery tribunal (DRT) had ordered Kingfisher Airlines, as the primary debtor, and UBHL, as the guarantor, to pay Rs 6,200 crore.

"That order attained finality. However, between 2017 and now, the Rs 6,200 crore has been recovered multiple times over. According to an admitted statement, as of today, the recovery officer confirms that Rs 10,200 crore has been recovered. Additionally, the official liquidator states that the banks have regained their dues, and even the Finance Minister informed Parliament that Rs 14,000 crore has been recovered," he stated.

He clarified that the petition does not dispute the repayment of loans, but argues that under the Companies Act, once the debt is fully repaid, the guarantor company (UBHL) has no remaining liability and can seek revival.

However, this process requires a certification from the recovery officer confirming that the debt has been fully settled, which has not yet been issued. Meanwhile, recoveries continue without clarity on whether the primary debt has been entirely paid, the petition said.

The plea requests the banks to provide a statement detailing the amounts recovered in their favour, along with information about the original owners of the assets used to generate these recoveries, following the amended recovery certificate issued by the DRT on April 10, 2017.

Additionally, it seeks a record of any assets belonging to Mallya, UBHL, or third parties that remain with the banks but have not yet been utilised for loan recovery.

Kavach on Mumbai-Delhi-Kolkata train route: Deadline extended to Dec '25

PTI, NEW DELHI: Railway Board has extended its deadline for the installation of Automatic Train Protection System, Kavach, on Delhi-Mumbai and Delhi Kolkata route from March to December 2025.

"Track side equipment for Kavach Version 4.0 on the 3,000 Km route of New Delhi-Mumbai and New Delhi-Kolkata will be completed by Dec, 2025 and work on the remaining section is underway," budget document, 'Railways estimates for Revised Estimates 2024-25 and Budget Estimates 2025-26' shared by the Board on February 1, 2025 said.

The Railway Ministry had on August 7 last year said that Kavach work would be completed on the route by March, 2025.

"Indian Railways has adopted indigenously developed Kavach as National ATP system in 2020 and after indigenous development specification for Kavach Version 4.0 was approved in July '24. Work for the installation of Kavach on 10,000 locomotives has already started," the budget document said.

According to railways, Kavach is

Kavach installation work is going on across all Indian Railway networks on a mission mode. The latest version, Kavach, ie, 4.0 was approved by the Research Design and Standards Organization (RDSO) in July 2024. Since it is a very complex technology ... its installation is time taking. However, we are much faster as compared to other developed countries — Railway Source

a complex technology with multiple components such as RFID tags meant to be installed along the track length, telecom towers throughout the section, optical fibre cable along the track, and Loco Kavach on each and every locomotive.

"Kavach installation work is going on across all Indian Railway networks on a mission mode. The latest version, Kavach, ie, 4.0 was approved by the Research Design and Standards Organization in July 2024.

"Since it is a very complex technology ... its installation is time taking.

However, we are much faster as compared to other developed countries," a railway source said.

Railway Minister Ashwini Vaishnaw recently said that the entire rail network will be covered by Kavach in the next six years.

Vaishnaw had earlier said that developed countries like Germany, France, Italy, which are one-fourth the size of India, took over 20 years to operationalise automatic train protection systems across their rail network, but Indian railways will achieve it in less time.

Kavach aids the Loco Pilot in running of trains within specified speed limits by automatic application of brakes in case Loco Pilot fails to do so and also helps trains run safely during inclement weather.

On December 20 last year, Vaishnaw informed the RS in a written reply that the first field trials on the passenger trains were started in February 2016, and based on the experience and Independent Safety Assessment of the system, three firms were approved in 2018-19 for supply of Kavach Ver 3.2.

5 more cheetahs released from enclosures in MP

PTI, SHEOPUR: Five more African cheetahs were released from enclosures into the forest at the Kuno National Park (KNP) in Madhya Pradesh's Sheopur district on Wednesday.

With this, of the total 26 cheetahs at the KNP, seven are out in the wild.

Chief Minister Mohan Yadav released female cheetahs Dheera and Asha along with Asha's three cubs into the wild in the afternoon.

He also reviewed the Project Cheetah, rolled out in September 2022 to reintroduce the fastest land animal in India which became extinct in the country in 1952, with officials.

"It is a matter of immense happiness to see that the cheetah, once extinct from Asia, is expanding its family in Madhya Pradesh," the CM said.

On Tuesday, CM Yadav had shared news that two cubs were born to cheetah Veera.

The KNP is now home to 26 cheetahs — 14 cubs and 12 adults.

Of these, seven cheetahs — four adults and three cubs — are now in the wild, while 19 — eight adults and 11 cubs — are left in the enclosures.

In December last year, cheetahs Vayu and Agni were released into the wild from their enclosures.

On September 17, 2022, Prime Minister Narendra Modi released eight Namibian cheetahs -- five females and three males -- into enclosures at the KNP as part of the world's first intercontinental translocation of the big cats, seven decades after the animal became extinct in India due to hunting and habitat loss.

With profound grief we announce the passing of

ELVIS MARTINS
Born: 02.11.1962
Died: 05.02.2025
BAGA - VELIM
