Justin Trudeau reportedly says Trump's talk of making Canada a US state is 'a real thing'

PTI, VANCOUVER: Prime Minister Justin Trudeau on Friday said President Donald Trump's talk of making Canada the 51st U.S. state is a real thing and is linked to the country's rich natural resources, local media reported.

Trudeau's comments to business and labor leaders in a closed-door session were mistakenly carried by a loudspeaker, Canada's public broadcaster CBC reported.

Mr. Trudeau has it in mind that the easiest way to do it is absorbing our country and it is a real thing. In my conversations with him on, Trudeau said of making Canada a U.S. state before the microphone cut out, according to CBC.

They're very aware of our resources, of what we have and they very much want to be able to benefit from those, Trudeau reportedly said.

Trump had threatened the tariffs to ensure greater cooperation from the countries to stop illegal immigration and prevent fentanyl smuggling, but he has also pledged to use tariffs to boost domestic manufacturing and raise revenues for the federal government

Trudeau's office did not immediately respond to a request for comment.

In a post on social platform X, Gil McGowan, president of the Alberta Federation of Labor, confirmed what Trudeau said.

Yes, I can confirm that Trudeau said his assessment is that what Trump really wants is not action on fentanyl or immigration or even the trade deficit, what he really wants is to either dominate Canada or take it outright, McGowan wrote.

Trump has repeatedly suggested Canada would be better off if it agreed to become the 51st U.S. state.

Trump on Monday agreed to a 30-day pause on threats to impose 25 per cent tariffs on imports from Mexico and Canada, with another 10 per cent tariff on Canadian oil, natural gas and electricity.

Trump had threatened the tariffs to ensure greater cooperation from the countries to stop illegal immigration and prevent fentanyl smuggling, but he also pledged to use tariffs to boost domestic manufacturing and raise revenues for the federal government.

Trudeau said Canada can use the 30-day extension to show U.S. officials the country's increased spending on border security. Canada has announced a USD 1.3 billion Canadian dollars (USD 900 million) border security plan that includes drones, helicopters, more border guards and the creation of a joint task force.

This is a moment, said Trudeau. This is a time in our country's history that really matters.

Over 30 missing after landslide hits southwest China

PTI, BEIJING: Chinese rescuers searched for some 30 people after a landslide on Saturday in southwestern Sichuan province buried 10 houses and forced hundreds of residents to evacuate.

The Ministry of Emergency Management deployed hundreds of rescuers including firefighters following the landslide in a village in Junlian county. Two people were pulled out alive and about 200 others were relocated, state broadcaster CCTV said.

A villager told BeijingNews that rocks were frequently seen rolling down the mountain since the second half of 2024, in some cases making sounds similar to firecrackers. The villager said geologists had inspected the area late last year, the state-run newspaper reported.

President Xi Jinping expressed his concern and urged authorities to make every effort to search for the missing people and minimise casualties, the official Xinhua news agency reported.

Chinese Premier Li Qiang asked for an investigation and inspection of potential geological hazard risks in nearby areas. Li also said residents who were under threat should be evacuated to prevent another disaster, according to Xinhua.
