

Stage set for Aero India-2025

Event to showcase India's aerial prowess, indigenous cutting-edge innovations alongside products from global aerospace companies

PTI, BENGALURU: The Yelahanka Air Force Station here is decked up for the biennial Aero India show which will be inaugurated by Defence Minister Rajnath Singh on Monday.

Themed as 'The Runway to a Billion Opportunities', the five-day extravaganza will showcase India's aerial prowess and indigenous cutting-edge innovations alongside state-of-the-art products of global aerospace companies.

The key highlight among the impressive aerial displays on the inaugural session will be the Tejas Formation comprising Air Chief Marshal A P Singh in one of the aircraft, IAF sources told PTI.

It will be followed by 'Naari Shakti' formation led by women pilots in Rafale, they said.

The interesting aspect of this event is that the US combat aircraft Lockheed Martin F35 and Russia's Sukhoi-SU-57 are taking part in the Aero India show.

"For the first time in history, Aero India 2025 will witness the participation of two of the world's most advanced fifth-generation fighter aircraft - the Russian Su-57 and the American F-35 Lightning II," a government statement said.

It marks a milestone in global defence collaboration and technological advancement, offering aviation enthusiasts and defence experts an unparalleled prospect to witness these state-of-the-art warplanes, it added.

"To our knowledge, this is the only event where both these aircraft are coming together. F35 will be on the static display on the inaugural day and there could be a flyby event on some later days," an IAF officer said.

Chief of the Air Staff Air Chief Marshal A P Singh (L) with Chief of the Army Staff (COAS) General Upendra Dwivedi pose for photographs after taking a sortie aboard a Tejas aircraft ahead of the 'Aero India 2025', in Bengaluru, Karnataka, on Sunday

Addressing a press conference in Bengaluru on the eve of the event, Rajnath Singh described Aero India as a crucial platform, which will drive forward the government's vision of a strong, capable, secure and self-reliant India.

"Aero India is a platform that showcases the strength, resilience, and self-reliance of New India. It is not just crucial for India's defence preparedness, but it also plays a pivotal role in shaping the future of our nation," Singh said in his address.

The biennial event will demonstrate India's defence capabilities and forge global partnerships, he opined.

"Our goal is to enhance collaboration in

areas of common interest with our friendly nations, fostering deeper cooperation and shared progress. The event is not just a showcase of technology and innovation, but will also serve as a source of inspiration for our youth, fostering scientific temperament and a spirit of innovation," the Defence Minister said.

Organised in a total area of over 42,000 sq m and with the confirmed participation of over 900 exhibitors, including 150 foreign companies, the event is set to be the biggest-ever Aero India till date, he noted.

Singh termed the participation of more than 90 countries as a testament to the growing global confidence in India's aero-

HIGHLIGHTS

- Two fifth-generation fighter jets with advanced stealth capabilities to participate
- Russian Su-57 - Russia's premier multi-role stealth fighter
- American F-35 Lightning II - Flagship of the US Air Force
- A side-by-side comparison of Eastern and Western fifth-gen fighter technology
- Demonstrations will feature high-speed aerial manoeuvres, showcasing stealth, agility, and firepower
- Marks India's growing status as a key hub for international defence and aerospace collaboration.

space and defence capabilities.

"Defence ministers or representatives from about 30 countries have come to participate in this event. The presence of Air Chiefs and Secretaries from 43 countries further highlights the significance of this event - not just for India, but for the entire international defence community," the minister said.

According to him, post corporatisation of Ordnance Factory Board, the newly formed companies have started performing exceptionally well in defence production.

Singh also expressed confidence that defence production, having crossed the record figure of Rs 1.27 lakh crore, will exceed Rs 1.60 lakh crore by the end of 2025-26. Defence exports, which touched the record figure of Rs 21,000 crore, he said, will surpass Rs 30,000 crore.

'States demanding funds as per their tax contribution is petty'

PTI, MUMBAI: Union Commerce Minister Piyush Goyal has said the demand by some states that they get central funds in proportion to their contribution of taxes to the central kitty is "petty thinking" and "unfortunate".

Prime Minister Modi is of the view that if the country is to prosper, the eight states of the Northeast and eastern Indian states like Bihar, West Bengal, Odisha and Jharkhand must develop,

Goyal said on Saturday. In the last 15 years, the Modi gov't's 'laser focus' was on the Northeast and eastern states, the minister said.

PUBLIC NOTICE

Notice is hereby given to the public in general that my client is desirous of purchasing free from encumbrances subject to marketability of title from Mr. Om Prakash Kalia resident of Calangute, Bardez, Goa, Mr. Vinod Kumar Sabharwal resident of Bangalore, India and Mr. Rajesh Sardana, resident of Bangalore, India, two distinct and independent properties known as "GRAND MOROD", bearing Survey nos. 3112 and 3111/7 of village Salgao, measuring 400 square meters and 75 square meters respectively, situated at Salgao village, within the local limits of village panchayat of Salgao, which properties are not found registered in the office of the Land Registration nor under the Land Revenue office nor enrolled under matrix, which properties are more particularly described in the Schedule-I and Schedule-II hereunder written.

Bengal: Foundry industry to receive ₹2k cr investment

PTI, KOLKATA: The foundry industry in West Bengal will receive Rs 2,000 crore investment in new and brownfield expansions to boost capacity amid cost pressures and evolving demand trends, an official said on Sunday.

"West Bengal is witnessing a growth rate 50% higher than the national average. Considering both large and MSME foundry expansions and greenfield projects, the cumulative investment will be Rs 2,000 crore, of which MSMEs will contribute Rs 400 crore," said Navneet Agarwal, president of the Institute of Indian Foundrymen.

He was speaking on the occasion of the 73rd Indian Foundry Congress & International Foundry Exhibition.

Karnataka expecting Rs 10 lakh cr investment commitments in investor meet: Minister Patil

BENGALURU: Karnataka is expecting to sign investment commitments of about Rs 10 lakh crore with an array of industries at its biennial investor meet this week, aimed at showcasing the state's industrial potential, M B Patil, Minister of Large and Medium Scale Industries, said. The Invest Karnataka 2025 -- Global Investors Meet (GIM 2025), scheduled from February 11-14 in Bengaluru, aims to position Karnataka as a premier global investment hub. "We are expecting around Rs 10 lakh crore in investments, with at least 70% converting into reality (and) not just (remaining) on paper," he told PTI Videos. On the theme of the summit 'Re-Imagining Growth', Patil said this "because today we are in a stage where our world is moving towards tech-driven, green, inclusive, and more importantly, resilient growth. Because we are in a situation... (these are) challenging times. There is a war in Ukraine and Russia, then the Israel-Gaza conflict, (US President) Trump's policies, China plus one, two years (post recovery from) Covid-19, and more importantly, artificial intelligence, clean mobility coming in".

"EVs and green hydrogen will take centre stage. Diesel, petrol, and all fossil fuels will be phased out. So these are challenging times, how do you adapt to that? We have a very strong system, which has to be resilient to all these changes. So we have these investors meet in these challenging times," he said.

Significant drop in gold smuggling post import duty cut: CBIC Chief

PTI, NEW DELHI: Gold smuggling has reduced significantly since July 2024 when the government slashed import duty on the precious metal to 6%, Central Board of Indirect Taxes and Customs (CBIC) Chairman Sanjay Kumar Agarwal said.

As per the latest available data, Customs and DRI officers seized 847 kg of gold worth Rs 544 crore at various airports in the April-June period of the current fiscal.

PLUGGING LOOPHOLES

In July, the government reduced customs duty on gold to 6% from 15%.

"After the rate of duty was reduced on gold in the last year's budget, there is a significant reduction in the smuggling of gold," Agarwal told PTI in an interview.

Although Agarwal did not reveal the quantum or value of gold seizures, he said authorities are keeping regular watch over the international passenger traffic, porous borders, and commercial cargoes coming into the country to cut the smuggling of narcotics through any route.

As per the latest available data, Customs and DRI officers seized 847 kg of gold worth Rs 544 crore at various airports in the April-June period of the current fiscal

Smuggling is the secret movement of goods across national borders to avoid customs duties or import or export restrictions. It typically occurs when either customs duties are high enough to allow a smuggler to make a large profit on the clandestine goods or when there is a strong demand for prohibited goods, such as narcotics or weapons.

The Directorate of Revenue Intelligence (DRI), under CBIC, is the apex agency of the Indian customs in the field of anti-smuggling in India.

During the 2023-24 financial year, DRI officers alone seized 1,319 kg of gold and smuggling through India's porous eastern borders, particularly with Bangladesh and Myanmar, has also emerged as a major concern for law enforcement agencies.

This is part of the 4,869.6 kg of gold seized by the CBIC, including by Customs officers, in 2023-24. 1,922 persons were arrested by the CBIC during

the year.

As per DRI's Smuggling in India Report released in December, India has become a major destination for illicit gold imports, with gold and silver predominantly originating from Gulf states such as the UAE and Saudi Arabia, where these metals are sourced and available at lower prices.

Gold smuggling through air routes in India remains a prominent method used by smugglers. Middle East and South East Asian countries have traditionally been the major points of origin.

Recently, African airports such as Nairobi and Addis Ababa, along with Central Asian airports like Tashkent, have also emerged as key locations for smuggling operations.

Smugglers frequently use passengers to conceal gold in innovative ways, including by hiding it in their clothing, luggage, or even within their bodies, to evade customs detection.
