PTI, JAMMU: A Pakistani infiltrator was shot dead by BSF troops along the International Border here, officials said on Saturday, as authorities ensured his proper Islamic burial after the Pakistan Rangers refused to accept his body at a flag meeting.

The unidentified Pakistani man, aged around 35 years, was killed when the Border Security Force (BSF) personnel opened fire after noticing suspicious movements near a border outpost in the Abdullian area in the R S Pura sector late on Friday night, officials said.

Border Security Force (BSF) personnel stand guard near India-Pakistan border at Ranbir Singh Pura, in Jammu district.

BSF troops, who are on high alert in view of Union Home Minister Amit Shah's scheduled three-day visit to Jammu and Kashmir from Sunday, lodged a strong protest with the Pakistan Rangers following the incident, the officials said.

"On the intervening night of April 4 and April 5, the alert BSF troops saw suspicious movements in the Jammu border area and an intruder was seen crossing the IB," a

BSF spokesperson said. He said the intruder was challenged by the troops but he paid no heed and kept moving.

"Sensing a threat, the BSF troops neutralised the intruder. The identity and motive of the intruder are being

ascertained," he added.

The spokesperson said a strong protest has been lodged with the BSF's Pakistani counterpart. According to sources, the BSF informed the police department, which sent the body for post-mortem and other legal formalities. Later, around 1:10 pm, the BSF conducted a short-duration flag meeting with the Pakistan Rangers near the site of the incident, the sources said.

Indian Youth Cong protests against govt silence over US tariff imposition

PTI, NEW DELHI: The Indian Youth Congress (IYC) on Saturday slammed the Modi government for its silence on the 26 per cent export tariff imposed by US President Donald Trump, calling it a sign of India's failed foreign and economic policy.

At a protest held in the capital, IYC National President Uday Bhanu Chib alleged that the new tariff would "destroy the Indian market" and severely harm sectors such as agriculture, small industries, chemical production and electronics manufacturing.

"Prime Minister Narendra Modi does not have the guts to speak against Trump. His silence is costing the Indian economy dearly," Chib alleged.

The Union government must stop "parading" its "so-called" friendship with the US and come clean on how it plans to protect India's interests, he added.

Echoing similar concerns, Delhi Pradesh Youth Congress President Akshay Lakra said the tariff hike was evidence of the Modi government's diplomatic and economic failures.

"From supporting Trump's election campaign to completely bowing before him, what has Modi achieved? Today, the US is slapping 26 per cent tariff on our products, and our economy, which is already grappling with inflation and unemployment, is heading towards deeper trouble," Lakra said.

The IYC workers burned an effigy of Trump during the demonstration and attempted to take out a protest march but were stopped by police, said an IYC statement.

The IYC warned that if the government continues to be silent, it will intensify protest in the coming days.

Mumbai teen's 'Project Zul' introduces robotics to J&K students

PTI, JAMMU: A Mumbai-based teenager is inspiring students in Jammu and Kashmir with his project Zul - a pioneering science, technology, engineering and mathematics (STEM) initiative aimed at igniting their passion for robotics and coding.

Spearheaded by 17-year-old Arav Kaul from Mumbai's Dhirubhai Ambani International School, the program was launched to equip students in grades 9 and 10 with hands-on skills in microcontroller programming.

"The initiative seeks to foster innovation and technological growth in the region, empowering young minds with practical knowledge for the future", Arav said.

A STEM initiative refers to a program or effort aimed at promoting education, skills and careers in these fields.

Arav met Lieutenant Governor Manoj Sinha here, who commended the initiative, recognising its alignment with the region's aspirations for technological transformation and youth empowerment.

"Robotics is more than technology - it's about problem-solving and creative thinking," Arav said, emphasising his mission to make STEM education accessible and enjoyable.

Teachers have enthusiastically embraced the training, describing it as engaging and practical, and are integrating these skills into their classrooms, he said.
