

Cong slams Modi govt over fall in domestic investment, collapse in FDI

In a post on X, All India Congress Committee (AICC) general secretary (communications) Jairam Ramesh said the net FDI in India during April to January 2024-25 was under \$1.4 billion as against \$19 billion during April to January 2012-13, when the Congress-led United Progressive Alliance (UPA) was in power

PTI NEW DELHI: The Congress on Friday accused the Centre of destroying domestic investment and causing a 'near annihilation' of Foreign Direct Investment through its practice of 'another type of FDI - Fear, Deceit and Intimidation', while the ruling BJP dismissed the charge as "misleading" and accused the opposition party of being out of touch with today's India.

In a post on X, All India Congress Committee (AICC) general secretary

(communications) Jairam Ramesh said the net FDI in India during April to January 2024-25 was under \$1.4 billion as against \$19 billion during April to January 2012-13, when the Congress-led United Progressive Alliance (UPA) was in power.

The Narendra Modi government's destruction of Domestic Investment (DI) has been accompanied by a near annihilation of Foreign Direct Investment through its practice of another type of FDI - Fear, Deceit and

Intimidation - Ramesh alleged.

During April to January 2012-13, the net FDI in India was \$19 billion. During April to January 2024-25, the net FDI was under \$1.4 billion, he said.

The former Union minister claimed that the Modi government achieved this distinction even before US President Donald Trump assumed office in January 2025.

During Joe Biden's US presidency, companies across the world were scrambling to invest in Asian countries, excluding China, he said, adding that Vietnam, Indonesia and Bangladesh got billions in investment while India languished.

BJP's IT cell head Amit

2.7% to a meagre 1.7% - a direct result of policy paralysis, corruption scandals, and a hostile business climate," he said in a post on X.

In contrast, Malviya said, "The Modi government has redefined India's FDI landscape: \$709.84 billion in FDI (2014-2024) - nearly 70% of all FDI since 2000. 69% rise in manufacturing FDI: from \$98B (2004-14) to \$165B (2014-24). 45% spike in FDI within NDA's first year. Record FDI of \$60.08B in 2016-17. \$71.28B FDI in 2023-24."

He said even in 2024, despite global headwinds, the FDI during January to September surged 42% YoY (year-on-year) to \$42.13 billion and H1 FY25 alone saw a 26% increase.

"The 'dip' Mr Ramesh refers to is a global phenomenon, not a failure of India's fundamentals," Malviya

claimed, adding that India's resilience stands out, driven by Prime Minister Modi's decisive leadership, as it jumped to the 40th spot in both the World Competitiveness Index 2024 and the Global Innovation Index (from the 81st position in 2015).

"Sadly, Congress seems to cheer perceived economic setbacks, even if they harm national interest. Their delight over temporary fluctuations shows their priority is politics - not progress."

"The fact is, India is thriving. The Modi government has built a stable, investor-friendly economy - unlike the UPA's legacy of missed opportunities and scandals. Jairam should check his facts. His narrative doesn't just mislead - it reflects how out of touch Congress is with today's India," Malviya said.

India geared up for 'high degree' of urgency: Jaishankar on trade deals with US, EU

PTI, NEW DELHI: The Trump administration was quick in responding to what was tabled for a bilateral trade pact with India and New Delhi is geared up for a "very high" degree of urgency in concluding trade deals with the US, the European Union and the UK, External Affairs Minister S Jaishankar said on Friday.

In an interactive session at the Global Technology summit, he said the US under President Donald Trump has fundamentally changed its approach to engaging with the world and it has consequences across every key domain, especially in the technology sector.

The external affairs minister's remarks came as Trump's policy on tariffs triggered massive trade disruptions and fears of a global economic recession.

On Wednesday, Trump announced a 90-day pause on his sweeping tariffs on all countries, except China as countries around the world wilted under the impact of the seismic action.

“Within a month of change in the administration, we actually have conceptually an agreement that we will do a bilateral trade agreement; that we will find a fix that will work for both of us because we have our concerns too. And it's not an open ended process — S Jaishankar, External Affairs Minister

ing any specific details of negotiations between India and the US on the proposed trade pact, indicated that New Delhi was keen to conclude it as early as possible.

"Within a month of change in the administration, we actually have conceptually an agreement that we will do a bilateral trade agreement; that we will find a fix that will work for both of us because we have our concerns too. And it's not an open ended process," he said.

"We did four years of talking in the first Trump administration. They have their view of us and frankly we have our view of them. The bottomline is that the deal didn't get done," he said.

Following talks between Prime Minister Narendra Modi and Trump in Washington DC in February, the

two sides announced to negotiate the first tranche of the BTA by the fall of 2025.

Jaishankar also referred to India's negotiations with the European Union for a free trade agreement.

"If you look at the EU, often people say we've been negotiating for 23 years which is not entirely true because we had big blocks of time when nobody was even talking to somebody else. But they have tended to be very protracted processes," he said.

"This time around, we are certainly geared up for a very high degree of urgency. I mean, we see a window here. Our trade teams are really charged up," he said.

"These (Indian negotiators) are people very much on top of their game, very ambitious about what they want to achieve," he said.

60 cyber slavery victims from India rescued from Myanmar

Five agents, including a foreign national arrested

PTI, MUMBAI: The cyber wing of Maharashtra Police has rescued more than 60 Indian nationals who were tortured and forced into cyber slavery in Myanmar, and arrested five agents, including a foreign national, a senior official said here on Friday.

The victims in the case were promised high-paying jobs abroad, but were threatened and physically tortured to commit cyber frauds there, he said.

This is perhaps the biggest action taken by the Maharashtra Cyber in a cyber slavery case with the help of the Ministry of External Affairs (MEA) and Ministry of Home Affairs (MHA), he said.

Maharashtra Cyber has registered three First Information Reports (FIRs) in this connection, he said.

The racketeers contacted the victims through social media platforms and lured them with high-paying jobs in Thailand and other East Asian countries, he said.

The agents arranged passports and flight tickets for the victims and sent them to Thailand on tourist visas. After landing in the country, they were sent to the Myanmar border, where they

were made to cross a river in small boats.

On entering Myanmar, the victims were taken to guarded compounds controlled by armed rebel groups, where they were forced to commit cyber frauds ranging from 'digital arrest' scams to fake investment schemes on an industrial scale.

Maharashtra Cyber, along with other agencies, rescued the victims, the official said, without giving details as to whether the operation was carried out inside Myanmar.

Additional Director General of Police (Maharashtra Cyber) Yashasvi Yadav said, "The accused include facilitators who helped the victims to take them to Myanmar."

"During the investigation of the case, four accused were arrested by the Goa Police, while we arrested the main accused from Mumbai, who was an Indian conduit," he said, adding that of the 60 victims, some could be named as accused if they were found to have played a role in it.

FIRST DEATH ANNIVERSARY

BORN: 23/12/1947
DIED: 24/03/2024

*"Though time has passed and we've moved on,
The void you left still echoes strong.
A constant ache, a lingering pain,
Reminding us of what we can't regain,
Yet in our hearts, your love still thrives,
A flame that never fades nor dies,
A precious bond we'll always hold,
A treasure worth more than gold.
One year without you may have come,
But our love for you will never fade away."*
