

Attari-Wagah border between India, Pakistan completely shut

PTI, NEW DELHI: The Attari-Wagah border cross-

ing point between India and Pakistan was shut completely on Thursday following a week-long heavy rush of people from either side to

cross over after the Union government ordered all Pakistani citizens with short-term visa to leave India in the wake of the Pahalgam

terror attack, sources said.

The Attari-Wagah border crossing point is completely closed now and no one from either country crossed over to the other side on Thursday, two sources confirmed.

A total of 125 Pakistani nationals left India on Wednesday through the Attari-Wagah border, taking the total number of Pakistanis leaving the country to 911 in the last seven days.

Fifteen Indian citizens with Pakistani visa also crossed over to Pakistan on Wednesday, taking the

total number of such people exiting India to 23.

Similarly, 152 Indian nationals and 73 Pakistani nationals with long-term Indian visa have entered India through the international border crossing point in Punjab's Amritsar district, taking the total number of such people to 1,617 and 224, respectively.

The Centre issued the 'Leave India' notice to Pakistani nationals after 26 people, mostly tourists, were killed by terrorists with Pakistan links in Kashmir's Pahalgam on April 22.
