Over 20 killed in Sudan after suspected drone strike hits prison

AP, CAIRO: A suspected drone strike launched by Sudan's paramilitary Rapid Support Forces hit a prison in the southern region of Kordofan on Saturday and killed at least 20 inmates, authorities said.

Fifty other detainees were wounded in the attack on the main prison in Obeid, the capital city of North Kordofan, Information Minister Khalid Aleiser said in a statement.

Aleiser, who is also the spokesman of the military-allied government, accused the Rapid Support Forces for the attack, which came as the militia escalates drone strikes on the military-held areas across the country.

Sudan plunged into civil war on April 15, 2023,

when simmering tensions between the military and the RSF exploded into open warfare in the capital Khartoum and other parts of the country. Obeid is 363 kilometres south of Khartoum.

There was no immediate comment from the RSF, which earlier this month launched multi-day drone attack on Port Sudan, the Red Sea city serving as an interim seat for the Sudanese government. The strikes hit the city's airports, maritime port and other facilities including fuel storages.

The military earlier struck Nyala airport in South Darfur, where the RSF receives foreign military assistance, including drones. Local media say dozens of RSF officers were killed in last week's strike.
