

Israel fire kills 36 in Gaza

AFP, GAZA CITY: Gaza's civil defence agency said Israeli forces killed at least 36 Palestinians on Saturday, six of them in a shooting near a US-backed aid distribution centre.

The Israeli military told AFP that troops had fired "warning shots" at individuals that it said were "advancing in a way that endangered the troops".

The shooting deaths were the latest reported near the aid centre run by the Gaza Humanitarian

A plume of smoke erupts during Israeli bombardment in the Gaza Strip as pictured from across the border in southern Israel, amid the ongoing war between Israel and Hamas

Fund (GHF) in the southern district of Rafah and came after it resumed

distributions following a brief suspension in the wake of similar deaths pation near the Al-Alam roundabout", where they had gathered to seek humanitarian aid from the distribution centre around a kilometre (a little over half a mile) away.

Palestinians have congregated at the roundabout almost daily since late May.

AFP is unable to independently verify the tolls compiled by the civil defence agency or the circumstances of the deaths

earlier this week. Meanwhile, an aid boat with 12 activists on board, including Swedish climate campaigner Greta Thunberg, was nearing Gaza in a bid to highlight the plight of Palestinians in the face of an Israeli blockade that has only been partially eased.

Civil defence spokesman Mahmud Bassal told AFP that at around 7:00 am (0400 GMT), "six people were killed and several others wounded by the forces of the Israeli occupation reports."

Samir Abu Hadid, who was there early Saturday, told AFP that thousands of people had gathered near the roundabout. "As soon as some people tried to advance towards the aid centre, the Israeli occupation forces opened fire from armoured vehicles stationed near the centre, firing into the air and then at civilians," Abu Hadid said.

We would like to sincerely thank everyone who provided support and assistance to our family during this difficult time.
Relatives and friends kindly accept this as the only intimation

Iran says 13 died from country during Hajj

AFP, TEHRAN, IRAN: At least 13 Iranian nationals died while performing the Hajj pilgrimage in Saudi Arabia amid rising temperatures in the holy cities, Iranian state media reported Saturday.

"As of Friday, June 6, the total number of Iranian pilgrims who have passed away during Hajj 2025 has reached 13," the health and treatment operations unit of Iranian Red Crescent Society said in a statement carried by the official IRNA news agency.

The statement did not specify the cause of deaths but cautioned the pilgrims to avoid direct exposure to the sun and drink plenty of water among other things to reduce the risk of heatstroke.

"In recent days, temperatures in the holy cities of Saudi Arabia have risen to 47°C, which can lead to severe heatstroke among pilgrims," IRNA said, adding that 86,700 Iranians went to Saudi Arabia this year for the pilgrimage.

Last year, more than 1,300 people - including 22 Iranians - died at the hajj pilgrimage in Saudi Arabia where temperatures hit 51.8C. Heat stress occurs when the body's natural cooling systems are overwhelmed, causing symptoms ranging from dizziness and headaches to organ failure and death.

RETURNED TO THE LORD
